📢 Call for Mobile App Developers! 📱

We are looking for a talented mobile app developer to create an application for hiking trails. If you have the skills and creativity to bring this project to life, we invite you to submit your application. Read on for more details:

1. Project Overview:

We are seeking experienced mobile app developers to design and develop a user-friendly app for both Apple and Android devices. The aim of the app is to provide tourists and visitors with an immersive experience while exploring various tourism trails and visiting key tourist sites. The app should include interactive maps, data on the trails, sites and weather, captivating multimedia content (images and videos), and offer users the option to upload their own multimedia content.

The expert is expected to accomplish the following tasks as indicated herein:

1. Design and development of the hiker mobile app, including defining the app specifications and the incorporating data about the natural and cultural monuments and interest points of the project area.

2. Development of options for users to interact with the system, and receive trail and weather data.

2. Deliverables:

1. A fully functional hiker mobile app that incorporates data about the natural and cultural monuments in the project area, as well as data about weather conditions, nearby sightseeing points.

2. User-friendly app that provides hikers with statistics about their progress during the hike.

3. A report detailing the specifications of the hiker mobile app.

3. Application Deadline:

June 25, 2023.

4. Key Requirements:

- Proficiency in mobile app development for Apple (iOS) and Android.
- Experience in integrating maps and geolocation services.
- Strong capabilities in handling multimedia content, including images and videos.
- Familiarity with user-generated content features and implementation.
- Creative mindset to enhance user experience and engagement.
- Ability to meet deadlines and deliver a high-quality product.

5. How to Apply:

Send an email to info@uri.org.al with the subject line: "App Developer Application."

Include your name, contact information, and a brief introduction highlighting your relevant experience.

Attach your portfolio or any previous mobile app projects that demonstrate your skills.

6. Selection Process:

Applications will be reviewed based on experience and portfolio.

Shortlisted candidates may be contacted for an interview or additional information.

We look forward to receiving your applications! If you have any questions, please don't hesitate to reach out to us at info@uri.org.al.
